Jason Slotta Named AVP, Manager of BankRI's East Side Providence Branch

PROVIDENCE, R.I. – Bank Rhode Island (BankRI) has named Jason Slotta Assistant Vice President, tapping the financial services veteran to lead its East Side Providence branch on Pitman Street. He assumed his new role in October.

Prior to joining BankRI, Jason worked for PNC Bank, where he was manager of its Business Banking Center.

“Jason’s many years of experience supporting the banking needs of business and individual clients while managing successful teams of employees make him the ideal fit to lead what is one of our busiest branch locations,” said Robert Ricci, SVP, Regional Manager for BankRI. “In particular, it is his commitment to service and building meaningful customer relationships that sets him apart.”

As manager, Jason oversees the branch’s day-to-day operations and is responsible for leading and coaching a diverse team of financial professionals. He focuses heavily on business development through enhancing existing customer relationships and fostering new opportunities. Jason also works closely with individual banking customers on personalized financial products that meet their specific needs.

Jason holds a BS in Management and Finance from Park University in Missouri. He is a resident of Portsmouth and is involved with the Greater Providence Chamber of Commerce. In his spare time, Jason enjoys golf and boating.
